NO. OF ENCLS. Appendices A and 1
LISTED BELOW

SUPPLEMENT TO
REPORT NO.

The following text in English translation of the Czechoslovak-Yugoslav Trade Treaty of 24 May 1948 is based on a German translation of the Czech original; through repeated translations, some difficulties in exact rendering of technical terms are to be expected, though the meaning is nowhere impaired.

Section one contains a communication from the CSR Ministry for Foreign Trade to the Office of the CSR President, indicating that a trade treaty has been signed between the CSR and Yugoslavia on 24 May 1948 and requesting approval from the CSR Government. Section two, a part of the same communication, further explains the reasons for the new treaty and gives a list of the documents comprising the original treaty. (It may be pointed out that the material in question was not all available here; the present report includes only the treaty agreement itself and the two lists of goods, with none of the additional protocols). Section three contains the full text of the Trade Treaty itself.

lists A and B, referred to frequently in the text, comprising lists of goods to be delivered from the CSR to Yugoslavia and from Yugoslavia to the CSR, respectively, are included here under Appendices A and B, respectively.

For the Minister:

J. Vejvara

To the Office of the President

in Prague

The Ministry for Foreign Trade in agreement with the Foreign Ministry, the Ministry of Industry, the Finance Ministry, the Czechoslovak National Bank and the other offices concerned, presents a copy of the Czech original text of the agreement concerning exchange of merchandise between the Czechoslovak Republic and the Federated People's Republic of Yugoslavia which was signed on 24 May 1948 in Prague. To the agreement for exchange of merchandise have been joined the lists of merchandise as well as the letters exchanged between the presidents of the two delegations.

At the same time, the Ministry for Foreign Trade adds a confirmatory communication and requests that the government in its next sitting make the following resolutions: "The government is aware of, and in agreement with, the agreement for exchange of merchandise between the Czechoslovak Republic and the Federated People's Republic of Yugoslavia, the agreement concerning payment, as well as the letters which have been exchanged between the presidents of the trade delegations, all of which was drawn up on 24 May 1948".

Execution will take place through the Ministry for Foreign Trade, the Ministry of Industry, and the Finance Ministry, in conjunction with the competent offices concerned.

2.

Confirmatory Communication

The previous agreement for exchange of merchandise between the Czechoslovak Republic and the Federated People's Republic of Yugoslavia, originally valid until 30 August 1948, has been extended until the conclusion of a new agreement for exchange of merchandise, since the negotiations begun in Belgrade were broken off in December 1947 because of considerable disagreement between the two delegations, provoked by the demands raised on the part of Yugoslavia which would have forced our economy into great sacrifices.

The present exchange of merchandise was so handled that licenses for export and import were granted within the limits of the quotas upon which the delegations had agreed and, indeed, on the account of the new agreement with retroactive validity from 1 October 1947.

New negotiations were begun early in March in Prague and ended on 24 May 1948 with the drawing up of this agreement. The duration of the treaty negotiations is explained by the fact that the delegation has attempted to render the agreement as comprehensive as possible, and consequently that, paralleling the negotiations concerning the present agreement, deliberations were made for supplementing the investment agreement, and further deliberations were made concerning the manner of payment for machines and installations out of the national renewal fund.

The exchange of merchandise between the two countries will be carried out on the basis of the attached lists A and B. The extent of the agreement comprises 2,750,000,000 Czechoslovak crowns on each side, consideration being made of the fact that the goods exchanged by both parties are adjusted in consideration of their economic importance.

In accordance with the payment agreement the masse de manoeuvre has been increased from the original 300,000,000 Czechoslovak crowns of the previous treaty to 400,000,000 Czechoslovak crowns, with respect to the greater extent of the agreement, as well as one-third increase on down-payments for merchandise ordered in the Czechoslovak Republic, and also because the merchandise of Yugoslav origin for the most part has a seasonal character.

A constituent part of the treaty is the agreement concerning payments of a different nature than for merchandise. In connection with the previously cited agreement for exchange of merchandise and for payments, eight letters were exchanged between the presidents of both delegations which supplement the treaty. There is one letter in which the official relationship of the Czechoslovak crown to the U.S. dollar is cited, a letter concerning financing and compensation for tourist trade, a letter dealing with adjustment of payment for commercial service, a letter concerning accommodation of transit of Czechoslovak merchandise through Yugoslav harbors, in cases in which this route offers at least equal conditions and is equally advantageous for the interests of the Czechoslovak Republic as transport through other harbors.

Furthermore, a letter concerning payment of personal transport on Yugoslav ships outside Yugoslav territorial waters, a letter concerning increase in the postal service, and concerning the question of payment of obligations which arise from freight on merchandise.

In one of the letters exchanged, the obligation of the Yugoslav government was recognized to deliver 4,000 tons of meat before the end of July 1948.

Text of Trade Treaty~~CONFIDENTIAL~~Agreement

Concerning Exchange of Merchandise Between
the Czechoslovak Republic and the Federated
People's Republic of Yugoslavia

The Government of the Czechoslovak Republic and the Government of the Federated People's Republic of Yugoslavia, induced by a desire to increase mutual commercial relations as far as possible, agree to the following:

Article I

Both treaty partners consider the commercial and navigational treaty, concluded on 14 November 1928, as still being a valid basis for mutual commercial relations in all subsequent supplementary agreements. Exception is made only for the tariff provisions which no longer correspond to present-day altered economic conditions provoked by war and occupation. This does not mean that this treaty cannot be replaced by a new treaty, as is the desire of both parties, which corresponds in greater measure to the close economic cooperation of the two states.

Article II

The exchange of merchandise between the two states will be carried out on the basis of the attached lists of goods A and B, which constitute a constituent part of the agreement. In addition to these lists, during the period of validity of the treaty, new lists can be agreed upon which supplement and enlarge lists A and B.

Article III

Both treaty partners bind themselves to do everything to fulfill the deliveries of merchandise in accordance with attached lists A and B.

Article IV

Both treaty partners will undertake all necessary steps so that between the exporters and importers of the Czechoslovak Republic on the one hand, and the exporters and importers of the Federated People's Republic of Yugoslavia, on the other, purchase and sale agreements are concluded and carried out only within the framework of the quotas specified in lists A and B attached to the treaty.

According to paragraph one of this article, the purchase and sale agreements are to be concluded as soon as possible. In exceptional cases, purchase and sale agreements can be concluded at the end of the validity of the treaty, if it is a question of deliveries with a seasonal character

or quotas which by their very nature fall under the heading "Miscellaneous".

After conclusion of the purchase and sale agreements between importers and exporters of both countries, a mixed commission, which will be formed in accordance with Article X of this agreement, will scrutinize prices and delivery terms of proposed business negotiations in separate protocols.

Article V

The government of the Czechoslovak Republic will grant to authorized import and export firms, export and import licenses for merchandise according to lists A and B, and will do so in the corresponding quantities or values as they have been cited on the lists.

The government of the Federated People's Republic of Yugoslavia will grant to authorized exporters and importers, export and import licenses for merchandise according to lists A and B in the quantities or values which are cited in the lists.

Article VI

The merchandise, which in accordance with this agreement will be exported from the Czechoslovak Republic to Yugoslavia, will be delivered f.o.b. Czechoslovak frontier or f.o.b. Danube harbor.

The merchandise, which in accordance with this agreement will be exported from Yugoslavia to the Czechoslovak Republic, will be delivered f.o.b. Yugoslav frontier or f.o.b. Yugoslav river or sea harbor.

Article VIII

The manner of payment in connection with the exchange of merchandise is laid down in the agreement concerning payment which is a part of this treaty.

Article IX

The prices at which the goods which are cited in the attached lists A and B will be delivered will be agreed upon directly between exporters and importers of both countries.

If serious difficulties arise in reaching an agreement on prices, the dispute will be settled by joint mediation; either between the president of the Czechoslovak element of the mixed commission which will be set up according to Article X of the agreement and the commercial delegates of the Federated People's Republic of Yugoslavia in Prague; or, between the president of the Yugoslav element of the mixed commission and the commercial delegates of the Czechoslovak Republic in Yugoslavia.

If the dispute cannot be settled within fifteen days by this means, the disputed matters will be laid before the mixed commission for final settlement.

Article X

In order to carry out and facilitate the exchange of merchandise between the two countries, a mixed commission will be set up for which each of the two treaty partners will send three members with the following assignments:

- 1) Swift settlement of all difficulties which come up in connection with the exchange of merchandise, particularly with regard to prices and dates of delivery.
- 2) Seeing to it that purchase and sale agreements are concluded at the proper time between exporters and importers of both countries.
- 3) Responsibility of seeing that the merchandise designated in the purchase and sale agreements is delivered on the appointed dates and that all other treaty conditions are met.
- 4) With a view to checking periodically upon the execution of the agreement, to present proposals for improvement and increase in exchange of merchandise and payment between both countries and also to introduce suggestions for removing critical conditions which the exchange of merchandise might encounter.
- 5) Proposal of possible alterations and supplements to the quotas indicated in lists A and B.

The mixed commission will be set up 45 days after preparation of this treaty and will meet every three months alternately in Prague and Belgrade. The presidents of the Czechoslovak and Yugoslav sections can convene them at any time in case of need. The place of the meetings will be set by common agreement.

Article XI

Under the heading "Miscellaneous", which is cited in both lists, merchandise will be imported or exported which is not contained in lists A and B, and if both treaty partners agree, also merchandise which is contained in lists A and B.

Article XII

This treaty becomes valid the day it is signed and will remain in force until 31 December 1948. Nevertheless, lists A and B comprise deliveries from 1 October 1947 to 31 December 1948. Deliveries of merchandise on the basis of purchasing and selling agreements which are concluded according to this treaty between importers and exporters of both countries before 31 December 1948, even after the expiration of the above treaty, will be executed on the same terms. If after the expiration of the period of validity of this treaty, a balance in favor of one or the other party remains, both treaty partners will agree within three months concerning the manner in which this balance is to be liquidated so that the balance can be liquidated by export of merchandise within two months more at the latest.
